

CN: Use blue for A-A<sup>4</sup>; dotted arrows represent venous blood flow in both illustrations. Use red for H-H<sup>4</sup>; clear arrows represent arterial blood flow in both illustrations. Use light colors for heart cavities B, C, I, and J. (1) Begin with arrows A<sup>4</sup> in the left side of upper drawing above and below the right atrium, B; color A and A<sup>1</sup> in the list of names. Color the structures in the order of the list, A-H<sup>3</sup>. (2) Color the circulation chart below, beginning with the arrow A<sup>4</sup> leading into the right atrium (numeral 1). Color the numerals, and their related arrows, in order from 1 to 4. Do not color the chambers or the vessels in the drawing at lower right.
